Details of Registered Business		Site Address	Customer Address
Business name:			
OFTEC Co Reg No			
Engineers name:			
Technician's Reg No:			
Address:			Page 1 of 1

Pre-commissioning checks / legislation			
1. Is there a completed CD/10 (or equivalent) for the installation works?			
2. If the Installer is not a Competent Person, is there a Building Notice?			If Yes, insert Ref. No.

Appliance Details			
Appliance Make Model			
Appliance Serial No.:		Burner Make Model:	
Tank Type:		Type:	
Fuel Type:		Flue Type:	

Call Type			
Oil firing service and Commissioning schedule (Confirm in accordance with checklists on the reverse and tick as appropriate)			
No. Schedule Item	Checked?	Passed?	Parts fitted / Observations
1. Oil storage			
2. Oil supply system			
3. Air Supply			
4. Chimney/Flue			
5. Electrical safety			
6. Heat Exchanger			
7. Combustion chamber			
8. Pressure jet burner			
9. Vaporising and wallflame burner			
10. Wallflame burner (additional)			
11. Appliance safety controls			
Heating system service			
12. Controls check			
13. System check - Hot water type			
14. System check - Warm air type			

Test Results					
It is important to keep a record of the combustion analysis results - if they have been carried out electronically a copy of the printout should be attached to all copies of the service schedule and report.				Print out attached?	Yes ☐ No ☐
Pump pressure:		Efficiency Nett (%):		Efficiency Gross:	
Pump vacuum:		Smoke No.		CO (ppm)	Excess Air (%)
Draught:		Nozzle (size):		(angle)	(pattern)
CO ₂ (%)		Flow rate (oil) Low (cc/min)		High (cc/min)	
Flue gas temp (°C)		Flow rate (DHW) Cold (l/min)		Hot (l/min)
